

# NEW VISION PACKAGING

## “CARING ABOUT OUR CUSTOMERS”

We care passionately about our customers, their businesses and their packaging. Whether we have supplied your packaging or not, we'd be delighted to perform a '**FREE PACKAGING MOT**'.

Our new '**MOT**' service is free, without obligation and includes:

- **PACKAGING STYLE:** Is there a better, more cost effective or aesthetically superior way to package your products?
- **PACKAGING DIMENSIONS:** Can your packaging be reduced in size to save you money and benefit the environment?
- **PACKAGING MATERIALS:** Are you using the most appropriate materials for your product, brand or the environment? Let us guide you through the options.

We are experts in the design and manufacture of packaging, so why not let us give your packaging a thorough **MOT** to ensure it is set for the future. Send us your packaging and we'll review every detail and, with only small changes, our recommendations could dramatically improve your packaging, saving you money in the process.

**It is no longer acceptable to use and sell packaging that is over-sized and over-engineered, so why not ask the experts for a free evaluation?**

New Vision Packaging Ltd, Suite 9, Headlands Business Centre, 10 Headlands,  
Kettering, Northamptonshire NN15 7HP.
